Quality recycling containers, bins, receptacles, benches, picnic tables, and commercial playgrounds

Welcome to the BuyRecycledProducts.com website. We offer a unique selection of innovative green products to fit your home or business recycling needs.

Collecting recyclables and buying recycled content products protects the environment and saves energy. It helps to substantially reduce greenhouse gas emissions that cause global warming and reduce landfill space.

Work. Play. Recycle.

CHALLENGES AND GOALS:

Before working with WSI, the client had a brochure style website (FibrexGroup.com) that lacked even the most basic optimization. He was spending over \$2,000 per month for Google AdWords paid search advertising and sending traffic to the site with no regard to conversion tracking and Conversion Architecture. The client had no reporting to show the effectiveness of his site in terms of capturing leads and converting visitors into paying clients.

THE SOLUTION:

For this project, WSI used the eMerchant Pro eCommerce solution because of its capability to have multiple categories, cross selling, order tracking, customer tracking, etc. WSI was responsible for project management, troubleshooting, and assisting the client with advanced features of the platform.

WSI fully optimized the site for search and continues to provide advanced SEO techniques to improve search results. We are also running a limited paid search advertising campaign for 2 of the client's product categories.

RESULTS:

The client recovered his investment within the first month after launching the eCommerce site with sales exceeding \$14,000 USD. Site sales after the first year reached \$125,000 USD exceeding business revenue goals by 25%. Second year revenues are up by 47% over the first year.

The client was so pleased with the results that he contracted WSI to redevelop his brochure site, FibrexGroup.com, to coincide with his new catalog publication.

FibrexGroup.com, which averages 5,000 unique visitors a month, compliments BuyRecycledProducts.com by giving site visitors the option to purchase the item through a "Buy Now" button that links to the eCommerce site, saving sales reps significant time.

TESTIMONIAL:

“WSI has been wonderful to work with. They have been so responsive to all our needs. The website is amazing. It has helped us realize our dream of an online store and it couldn't be more impressive. WSI is our Internet partner for life!”
